Newmarket, Friday Aug. 14, 1857. General Summary.

To-morrow (Saturday,) at 7 o'clock s. m. the various sections of road along the Town Line East will be let for building. This is an important road to Newmarket, as well as to the country East, and we hope the work will be prosecuted with vigor to final completion.

By reference to our advertising columns it will be seen that the Holland Landing Parochial Sabbath School purpose celebrating their Anniversary by a Tea-Party, on the 29th inst. Rev. S. F. Ramsay and other gentlemen are expected to address the meeting. No doubt there will be a large attendance, should the no criminal charge established against either weather prove favorable.

65 King Municipal Council will meet at Mr. Blough's Inn, 6th Con. on Monday the 31st inst., for the purpose of levying School Rates. | matter be carried to a higher court, their Trustees of School Sections desirous that the Council should collect their rates, must make the public mind to the injury of the parties application, setting forth the amount they wish to raise, to some one of the Councilmen on or before that day, or at the meeting.

The Genesce Furmer for August is before us, and is really an interesting number,containing articles on the Cultivation of Wheat; ed, in reference to the construction of the Premium Crop Carrots; how Nature imparts Fertility to the Soil; objects of Hoeing; keeping Sheep; to clean Cockle out of Wheat, &c .. &c., together with an engraved design for a Brick Farm House, and some other illustrations. Published by Mr. Joseph Harris, Rochester, N. Y., at 50 cts a year.

From the office of the Board of Agriculture we have receivred a copy of the Prize List for the Twelfth Annual Exhibition, which takes place in the Town of Brantford on the 29th and 30th of September, and 1st and 2nd of October next. Also, forms to be filled by parties proposing to exhibit articles for competition .-Members of the North York Branch Agricultural Society who purpose exhibiting stock or produce can be furnished with all necessary information an application to the Secretary at this office.

Elsewhere we publish a lengthy accoun of Mrs. Cunningham's duplicity to obtain the property of the late Dr. Burdell; and to our mind it furnishes a key to the murder-pointing out as with the finger of an idex who perpetrated the deed. It is true Dr. Uhl will probably be censured for the breach of trust reposed in him; but the question at once arises -did not the end justify the course pursued? If Mrs. C. is the base and inhuman monster those facts, if true, represent her to be-and we have no doubt as to their truthfulness-a person would be justified in pursuing almost any course to bring her to condign punishment.

07- The Clerk of the Peace for these United Counties has given notice, through the City journals, to resident Clergymen and Minister that the blank forms required by them in the Solemnization of Matrimony, as required by an Act of last Session, will be ready for distribution on and after the lat. proximo; but like everything else in which the residents of the County are chiefly interested, no notice is sent for publication to those journals published in ings of the way City officials conduct their businces, and not without reason. There are three papers published in various parts of the County of York, and certainly these would be more likely to disseminate County information than any city journal.

We beg to call attention to the fact, that it is now time delegates were elected by the Newmarket Mechanics' Institute to represent the Arrociation at the Upper Canada Board in Toronto. Our Institute will be entitled to send some three or four delegates-and a meeting should be held immediately and the requsite number chosen, in order that they may have to attend the Board meetings. To call a meeting, it is necessary that twelve members of the Institute sign a requsition to the President or Vice Presidents : who will take the matter in hand? The "Board of Arts and Manufactures" for Upper Canada holds its first merting at the Mechanics' Institute, Toronto on the 25th inst., commencing at 10 o'clock

No tradesman in Newmarket but can establish a business connection and the next train brings the desired articles. We hope these advantages will be rightly appreciated by our citizens.

Or Confreer of the Bradford Chronide has attempted to be a little witty at our remarks last week in reference to the formation of what we termed a " Board of Trade." After stating that the New Era ndvises a certain course, the Chronicle says-" We were previously unaware of the important case called wasobjects of these Boards of Trade in country villages. We think it would be a more apheight of his imagination-poor fellow .- himself had taken a farm on shares; and

Cumming the Bank Clerk or Agent has been bound over to appear at the Assizes on the charge of embezzlement; and the further examination of McGaffy and Kerby's complicity has been adjourned to the 7th of September next. So far as wa can learn from the evidence there has been of the two last named gentlemen; and we think the city daily journals were rather premature in their comments : for should the remarks might have the effect of prejudicing named in the indictment.

Newmarket as a Market.

In following up the articles already publish-Town Line Road-East and West, we shall now proceed to give the farmers in the vicinity, and likely to be benefitted by the construction of the proposed Road, some idea of the importance of Newmarket, as a Market for produce. And although we have no positive data regarding a large number of articles brought into market; yet we have been enabled to procure nearly accurate figures in Wheat, Flour and Wool, - and from these, deductions can be drawn as to the probable amount business in other descriptions of produce :

Wheat shipped from Newmarket Station, from 31-1 May, 1856, to 1st June, 1857, one year, - 92,000 Bush

Wheat purchased and floured 28,000 Total Bushels -120,000

Barrels of Flour shipped from 14.000 Wool brought to Newmarket Factory - -

32.000 lbs. Wool bought at Station 20,000 52,000 lbs.

These figures have been compiled from the most reliable authority, and we venture to affirm they will compare favorably with any other Station along the Northern Railroad. In Oits, Pens, Polatnes, Butter, Eggs, &c., we have no positive means of collecting information, in consequence of the large number of dealers; but from what we have been enabled to ascertain, the trade in these articles will bear an equal comparison with the figures above quoted. It should be borne in mind, too, that when produce is brought here, farmers can always depend on getting the audi for what they may have to dispose of. This is an important matter, and furnishes additional evidence of the neces- the other side of the story. the County. We have heard bitter complain- | sity and advantage of the line to the farming community. Newmarket now can boast of that the said Albert Cuyler started before dark men engaged in the purchase of the staple to go through the neighborhood to get all the productions of the soil, commanding any amount of means,-thus rendering it a market that may be depended upon. A few years ago, it was difficult for a farmer to obtain cash for his produce here, at any price; now, however. 81 000 in a day is not unfrequently paid for. The Magistrates consulted a few moments, and decided not to call any evidence for the defence-holding, that so long as the partnership business remained unsettled, it was not felony for either party to drive away that in which, both were interested, and dispose of it. If their agreement forbid an act of that kind, it then became a civil action; but unfortunately they had no written document to prove the agreement, nor witnesses to testify to the matter. They therefore would dismiss the case, with costs, which amounted to \$3 80cts.

Sally Kennedy vs. George Kennedy .-This was a case of assault and battery,complainant being wife of defendant. Sally vanted her leige lord to either give bonds to teep the peace with two sureties,-or sign an indenture to pay her a given sum quarterly towards the maintainance of their two children, and she would leave him forever. But defendent would not agree to the last proposition, and could not find any one to join with him in complying with the former. He was therefore committed to gaul for 12 calendar months, unless he could find two sureties that would join him to keep the peace before the expiration of the term.

The Court then adjourned. [Since the above was put in type we learn poor George found sympathizers, who went his bail.

The Burdell Revelation.

(From the New York Courier & Enquirer Aug. 5

A development of a most startling charac

ter was brought to light yesterday worning connected with the contested estate of the late Dr. Harvey Burdell-a mock birth, in order to secure the entire property of the murdered Doctor, and the arrest of the alleged conspirators. Ex-Judge Dean, one of the counse of Mrs. Conningham, during the summing up before the Surrogate, it may be remembered remarked that " if it were true, that in the or dinary gestation, a child should be born to Harvey Burdell, then not only all the ties of blood and nature, but all the dictates of hu manity, demanded that the Court should lean in favor of that innocent, unborn child, rather than those who had no direct claim upon the property." This announcement prepared the minds of the claimants among the blood relatives of Doctor Burdell to fully expect a pretender to the estate, and Mrs. Conningham Administrator appeared, and with Justice make more by stealing. Dr. Uld declined making an examination alone under the circumstances, and wanted to bave two other physicians with him as witnesses, to confirm the true state of the case. Mrs. Conningham declined having any Doctor but him, and his auspicions were therefore aroused to the conspiracy on foot. After calling several times on Mrs. Cunningham, she finally confessed that she was not enciente, but was bound to procure a child, who would be heir to the estate, She wanted Dr. Uhl to undertake the part of procuring an inlant and managing the affair for which entire job she was willing to give knowledge of the growing importance of of course the inmates of the house had no the sum of \$1000. Dr. Uhl declined at the time, and on advice of the counsel immediately informed District Attorney Hall of the con spiracy. This was about July 10th. Mr. Hall further argued with the doctor that he might have it in his power to prevent the crime accomplishing its guilty fruits, or from being an undiscovered mystery, that under the strange circumstances surroundand the unfortunate results which might flow to the community if her crimes should baffle detection, it was the duty of every man to do all in his power to thoroughly expose her. Mr. Justice Draper.

The official report of the evidence of Mr. Draper, before the Hudson's Bay Committee, entitled to a share of any personal estate, or has been published in the Colonist, and it to inherit any real estate, with the intent of fully corol orates the worst opinion formed of the course pursued by that gentleman. It is said that the Chief Justice has al property from any person lawfully entitled been purchased, body and sonly by the Company, and also that he is an applicant for a colonial governorship. His evidence would indicate that this is substantially correct, for a desire to serve the Company and to pander to the whims of Mr. Labouchere provades the whole of it. In fact, Mr. Draper seems to have been too anxious to ing this woman and her world-wide notoriety, perpetuate the monopoly. He betrayed himself into a false position by asking to been exhibited by an agent, that has had an A man named Murphy, residing in the Townhood.
